

NICU Potpourri of Pearls

Date:

September 25, 2025

Purpose:

To educate nurses on hemorrhagic shock treatment for neonates, alternative administration techniques for adenosine, and updates in neonatal resuscitation guidelines.

Target Audience:

Nurses

What you will learn:

- Describe the role of various factor products in the treatment of hemorrhagic shock in neonates
- Describe alternative administration techniques (e.g., single syringe) for adenosine
- Discuss updates to neonatal resuscitation guidelines with a focus on epinephrine dosing

1.0 CNE contact hour(s) will be awarded to participants who attend the entire activity, complete the post-test, and submit an activity evaluation.
