

Acute kidney injury in neonates and children

Date:

September 25, 2025

Purpose:

To educate nurses on acute kidney injury in neonates and children.

Target Audience:

Nurses

What you will learn:

- Identify acute kidney injury (AKI) in children and neonates
- Discuss interventions to prevent and mitigate AKI in children and neonates
- Develop strategies to optimize drug dosing in neonates and children with AKI

1.0 CNE contact hour(s) will be awarded to participants who attend the entire activity, complete the post-test, and submit an activity evaluation.
