

# Use of Novel Antimicrobial Agents: Evidence in Treating Pediatric and Neonatal Patients

## Date:

September 25, 2025

## Purpose:

To educate nurses on the use of novel agents in treating infections in pediatric patients.

## Target Audience:

Nurses

## What you will learn:

- Describe the evidence supporting novel antimicrobials in treating resistant gram negative infections and dosing in pediatric and neonatal patients
- Describe the evidence supporting novel antimicrobials in treating resistant gram positive infections and dosing in pediatric and neonatal patients
- Review evidence supporting shorter course antibiotics for pediatric pneumonia

**1.0 CNE contact hour(s) will be awarded to participants who attend the entire activity, complete the post-test, and submit an activity evaluation.**
